Startup Portal Guide:

1. In the startup portal an entrepreneur should be able to add their startup details:

- a. Name
- b. Description
- c. Industry
- d. Location
- e. Add team members from the platform that are part of their startup (users can accept or reject that they are part of the startup only if they accept then it would show them as part of it)
- f. Stage of Startup from one of the following options:
 - i. Idea
 - ii. Startup Launched (pre-revenue)
 - iii. Startup Operational (obtaining revenue)
 - iv. Seed-funded (operational and acquired investment)
 - v. Series A Funded (backed by accredited investors)
- g. What's the most important next step for your startup?
 - i. Validate my idea
 - ii. Find Additional Team Members
 - iii. Build your product
 - iv. Market my product
 - v. Raise Funds
 - vi. Others (with text box field for user to enter details)
- h. Website
- i. Social Media Links

- i. Facebook
 - ii. Instragam
 - iii. Twitter
 - iv. LinkedIn
 - v. TickTock
- j. Upload:
 - i. Business Plan
 - ii. Financial
 - iii. Pitch Deck
- k. Should have checkbox where they allow or do not allow other users to view their documents
- l. If allowed users can view their documents and do the following:
 - i. Click Reviewed for each doc
 - ii. Provide comments/feedback
- l. If a user has had 3 people view their business plan, financials, and pitch deck & answered 3 community member questions they get an option to schedule an appointment with a MEA Investor
 - A. Time & Zone
 - B. Date
 - C. Purpose of meeting (given a text box for them to type the purpose)
 - D. This would be shown on admin dashboard an a admin can accept the meeting, deny with ability to provide why, or setup a new time & date for the meeting
- 2. There should also be an ability for startups to raise funds through members on the platform (like kickstarter, gofundme, launchgood, etc). There would be a button they would click then a form would appear which would have the below:
 - a. Title/Request they are making
 - b. Amount they are trying to raise
 - c. Currency
 - d. Description box
 - e. Their bank/paypal details and info
- Admin would then be able to see their request approve or deny their funding request along with a message that's sent to the user
- admin would have ability to end when they want a fundraising request
- admin can adjust and take a % of the funds that were raised

Once the request is live users can see the startup info and make donations where users that donate their name would appear on the side like below:

Basic Necessities Cause Fund

 GoFundMe.org is organizing this fundraiser.

For so many Americans, a safe home and a warm meal is not their reality. Americans face homelessness and housing insecurity at a growing rate caused, in part, by decreasing employment and increasing housing costs. Factors such as race, generational poverty, and illness add to the likelihood that an individual or family will experience extreme scarcity.

Families make up 35% of the unhoused population and the added uncertainties of COVID-19 are putting countless more at risk. Families and individuals who once kept a delicate balance of income and needs are finding themselves at a tipping point. They

\$185,806 raised of \$250,000 goal
